

Please amend the application as follows:

In the Specification

Please insert the following between the title and the section entitled "BACKGROUND OF THE INVENTION":

Sub C1
~~RELATED APPLICATION~~

This application is a continuation-in-part of U.S. Application No. 07/717,597, filed September 23, 1996, now U.S. Patent 5,780,140.

In the Claims

Please amend the following claims:

- C2
1. (Twice Amended) A retroreflective structure comprising an array of transparent prisms having a three-sided base and three facets extending therefrom to a common apex, the base of the prisms lying in a common plane, each side of the base having a length of between [about] 0.0005 and 0.003 inches, the prisms including a reflective coating adhered to the facets and wherein the retroreflected light includes a 0.33 degree angle of observation, uniform orientation-free cone of light.

- C3
915. (Twice Amended) A retroreflective structure comprising an array of transparent prisms having a three-sided base and three facets extending therefrom to a common apex, the base of the prisms lying in a common plane, each side of the base having a length of between [about] 0.0005 and 0.003 inches, the prisms including a reflective coating adhered to the facets, wherein the light retroreflected from the structures encompasses a 0.5 degree angle of observation, uniform orientation-free cone.

- C4 Sub 917
17. (Amended) A retroreflective structure comprising an array of cube corner prisms which [diffract] diffracts essentially all incoming [retroreflected] light.
